## Test Yourself- U.S. Geography

Directions: Without looking at a map, label as many states as you can. How many did you get out of 50?

Once you have labelled as many as you can, use an atlas to label the rest.

*Optional: Put a star on all the states you have visited!*

Once you have labelled the states (and Washington D.C.), *draw and label* the following on the map:

- Mississippi River
- Ohio River
- Colorado River
- Columbia River
- Rio Grande
- Hudson River
- The Great Lakes
- Rocky Mountains
- Appalachian Mountains
- Sierra Nevada Mountains
